about

Daniel O'Connell holds a Bachelor of Fine Arts Degree in Graphic Design from Columbia College Chicago and has recently completed the Boise Code Works Immersive Full-Stack developer program. The course gave him the ability to combine his passion for design with results oriented front and back end programming. He has created memorable packaging for national recording artists and an educational movie series. When not freelancing, Daniel maintained an award-winning career in hospitality, where he used his attention to detail and creativity to create cocktails featured in publications such as the Chicago Tribune and Mandarin Quarterly.

current projects

E-commerce App - Winter 2018

Building an E-commerce app with Vue Js, BCrypt authorization, and Stripe payment. Interested in also implementing BootStrap 4 (stable release) and learning its new features.

work experience

Boise Code Works

Student

Excelled in a JavaScript-driven curriculum as a full-time student, and integrating complementary technologies such as Node.js, Vue js, BootStrap, HTML, CSS, MongoDB, C# and MySQL.

Big Brothers Big Sisters of America

Freelance Graphic Design

Created dynamic print materials for upcoming events and infographs to educate donors.

Learning Seed

Freelance Graphic Design

Packaging design for educational movies focused on childhood development, learning, health, and nutrition.

Packaging and Promotional Materials

Freelance Graphic Design

Created logo, identity, and packaging for musicians:

Magnolia Memoir

Rich Jones

Living Waters Records

Trump International Hotel & Tower

Principal Bartender

Worked within the standards of Mobil, Forbes, and Michelin ratings. Spearheaded a barrel aged cocktail program that was notably referenced by Chicago Tribune's food critic Phil Vettel saying "it was the best Negroni he ever had." Filmed instructional videos on building classic cocktails for the website AllRecipes.com. Appeared in a full page interview in the international travel magazine Mandarin Quarterly.

Univ-Rss (Universe) - Fall/Winter 2017/2018

Integrating custom RSS feeds, geolocation, Eventful, and Google API's to create a fully personalized landing page based on location. Univ Rss is made to be available for any web browser, using the Javascript framework Vue. A fully drag, drop, and scalable dashboard is at the users fingertips saving their preferences to a Mongoose DB backend.
